- Identify and infer the rules and principles set out in the passage;
- Apply such rules and principles to various fact situations; and
- Understand how changes to the rules or principles may alter their application to various fact situations.

Reasoning Aptitude

Reasoning part will include a series of short passages. Each passage will be followed by one or more questions that will require you to:

- Recognize an argument, its premises and conclusions;
- Read and identify the arguments set out in the passage;
- Critically analyse patterns of reasoning, and assess how conclusions may depend on particular premises or evidence;
- Infer what follows from the passage and apply these inferences to new situations;
- Draw relationships and analogies, identify contradictions and equivalence, and assess the effectiveness of arguments.

Quantitative Aptitude

This part will include short sets of facts or propositions, graphs, or other textual, pictorial or diagrammatic representations of numerical information, followed by a series of questions. Candidate will be required to derive information from such passages, graphs, or other representations, and apply mathematical operations on such information.

The questions will require you to:

- Derive, infer, and manipulate numerical information set out in such passages, graphs, or other representations; and
- Apply various 10th standard mathematical operations on such information, including from areas such as ratios and proportions, basic algebra, mensuration and statistical estimation.
